Research Plan Checklist

This checklist can be used by students and teachers to ensure all requirements are met. Teachers should review student Research Plans prior to submitting to the Local SRC for project approval. After teacher verifies that requirements are met, submit the Research Plan to the Local SRC. The Local SRC should return Research Plans with constructive feedback and indicate ISEF forms required in addition to Forms 1, 1a, and 1b.

Students may NOT start the experiment (data collection) until the Research Plan and ISEF forms have been approved by the Local SRC or IRB.

Teacher check	Student Check	Research Plan Requirements
		Name
		Grade
		School
		Working Title
		Statement of Problem or Question
		Hypothesis/Design Process
		Relevant Background Research
		Procedure/Experimental Design
		References
		ISEF Forms required for all projects: (1) (1A) (1B) *If any other forms needed, SRC will advise after review of Research Plan*
