JANUARY 19, 1973

The most unhappy of all men is he who believes himself to be so. —Hume.

Fire is the test of gold; adversity of strong men. —Seneca.

Smoke Puffs

Year Books

Persons interested in obtaining a copy of next year's yearbook (1973) should report to the business office and pay for them and take their receipt to the College Relations Office on the first floor of Allen Hall.

Yearbooks are ordered according to the number of advance subscriptions received, and if your name is not on the College Relations Office list, you may not be able to receive a yearbook next year.

Students who will be seniors do not have to register as they will receive a book free through the courtesy of the college next year.

Job Placement

February 5th, the Firestone Corporation has offered to send a recruiter to Rio Grande campus to interview students for prospective jobs. Any students interested in obtaining placement with Firestone after graduation must complete a placement file in the Student Affairs Office as soon as possible.

This opportunity has been offered to Rio students as a result of a cooperative program between Rio Grande and more than twenty of the nation's largest industries. More interviews will be scheduled only if all students who plan to graduate in the near future and enter fields other than education, demonstrate their interest by completing a placement file.

Parking

Parking regulations are as follows:

No student parking is allowed on the Dining Hall, Library, Haning Hall, Allen House, or Community Hall parking lots.

Students are allowed to park on the Student Parking Lot ("The Pit"), the south side of the Lyne Center Parking Lot, and residents of Davis Hall are allowed to park in the Davis Hall parking lot.

Visitors are allowed to park only in the area directly in front of the library.

Staff members are restricted to the immediate vicinity of the buildings in which they are employed.

All vehicles must be registered with the Director of Facilities. Parking areas will be policed daily.

New Yorker Directs Rio Theatre

By JUDY CANTER

Dr. Frank C. Davidson of New York City will direct "The Matchmaker", a farce comedy in two

Dr. Frank Davidson, New York director and University instructor.

acts and four scenes to be presented in Community Hall at Rio Grande College at 8:00 p. m. on February 1st and 2nd, and at 7:30 p. m. Saturday, February 3rd. Dr. Davidson has had 21 years of acting and directing experience and is a noted stage director, speech and drama professor and dialect coach. The production is being partially financed by a \$500 grant from the Ohio Arts Council and is a community production.

A matchmaker is "one who brings about a marriage or is given to bring about marriage especially by scheming."

Tryouts for parts, which were open to residents of Gallipolis, Jackson, Middleport, Pomeroy, Wellston, and Vinton, were held January 11th. The cast was chosen as follows: Mrs. Levi — Pauli Graham; Mrs. Sam Huysen — Sarah Walker; Ermengarde —

Barb Wetzel; Ambrose — Bruce Stalnaker; Minnie — Sheri Lenhart; Barnaby — Brendan Bey; Cornelius — Dwight Shumway; Waiter No. 1 — Monroe McCarty; Waiter No. 2 — John Kordeleski; Cook — Sheri Goldberg; Joe — Steve Little; Malachi — Lewis Rutherford; Gertrude — Pat Houck; Mrs. Malloy — Linda Hubler; Sandergelder — Ed Sofranko, and Cabman — William Fadeley.

As a comedy it must be directed with great speed and great timing.

It is set in the late 1800's in Yonkers, N. Y. and New York City.

The musical version of the comedy "Hello Dolly".

According to Dr. Davidson this play promises to provide a very entertaining evening and would like to invite everyone to attend.

There will be no charge for admission.

Students and Miss Reynolds prepare set for "The Matchmaker."

WAXN Now In Operation

Rio Grande College now has a new radio station which operates weekdays from 7 p. m. to 1 a. m. The station is the result of money,

Dave Coffman, Brad Krings and Champe Butler operate WAXN.

incentive, and many hours of work. Over Christmas vacation, Dave Coffman and Brad Krings built the new radio studio which is located in Boyd Basement. The new studio is modern, soundproof, and thus far has been a great success.

WAXN is at 88.3 on the FM band and broadcasts mainly music, although interviews and service announcements will also be put on-the-air.

The main objective of the new station is for students to learn how to work in a professional radio station, since this is the way WAXN is being operated.

There is a list on the cafeteria bulletin board for those students who wish to sign-up for disc jockey work at WAXN.

Rio Student Goes To Europe

Panorama City, California — Officials of the Jobs Europe program announced that Mr. Jim Eugene Davis, 19 years of age, has been accepted to work for a large British hotel organization in London this summer. He is a sophomore at the Rio Grande College where he majors in history. Jim wants to teach when he graduates. He has had experience working as a stock boy for the M&R shopping center and laborer for the Meigs County Highway Department. Mr. Davis resides with his parents in Rutland.

The Jobs Europe program was organized by the Princeton Research Corporation. The aim of this program is to give young people, 18 to 29 years of age, an inexpensive and unique opportunity to live in, and learn about, Europe.

ELECTION

Twenty-five student government positions must be filled. Primary elections for all offices will be held January 31. Petitions for such offices must be picked up and completed before noon January 24.

Students wishing to run for President or Vice President must have completed 28 semester hours with a 2.25 average at Rio Grande College. All senators must have completed one semester as a full time student at Rio.

Student judiciary council members must not have been on social or disciplinary probation for a period of at least one semester prior to election. They must have completed 28 regular semester hours. Chief Justice must be a junior at Rio Grande.

There are 4 voting members and 1 chairmanship available in the student activities committee.

General election will be held February 7.

PETITION

DEADLINE JAN. 24

Karate At Rio Grande

J. T. Will demonstrates karate side kick.

J. T. Will, a nationally recognized karate competitor and university instructor, recently captured the 1972 State of Ohio championships and will be appearing for lecture and demonstration here at Rio Grande College on January 21, 1:00 in the afternoon at Lyne Center.

Unfortunately, many people think karate involves breaking bricks and little more. According to Mr. Will, such involvement is merely for demonstration and has no practical use. At Ohio University, Will teaches karate "as a functional means of self defense. Self-defense against people, not boards."

J. T. Will is an expert in his field. Don't miss this chance to view the useful purposes of his art.

EDITORIAL

Staff Positions Open

Beginning this winter semester I must look back and see what must be changed. What is already good must be maintained and improved upon.

Any student who wishes to offer suggestions may do so by writing the Signals c-o Box 253, Rio Grande College.

On the other hand, if a student wishes to take a more positive approach, he may apply for any of several positions available on the newspaper staff.

One paid position, circulation manager, is open. The duties of the circulation manager include delivering and distributing the Signals. The circulation manager also send the Signals to various subscribers.

As always, the Signals can use more writers. We are assuming, of course, that we have at the present some writers.

Any news items of current interest should be given to one of the staff members. (Their names are listed in the credit box in hopes that someone may someday overflow with information.) The Signals office hours will be Monday through Friday from 2:50 p.m. to 3:50 p.m.

If anyone wants to talk, complain, or suggest, please feel free to stop in above the Student Center, Room One. You may call 245-5684 during the office hours or any time you may be able to catch us in.

Advertisements

Many people may have noticed the absence of our two standing ads. The story behind this is, "The more things one does the more work is necessary."

We have found the little money obtained from advertisements does not permit our continuing to waste space on it.

The Signals will no longer accept any paid ads for any reason whatsoever.

This however does not exclude the printing of placement material supplied by the cluster group members.

Community College Survey

A recent survey conducted by officials of the Rio Grande Community College showed that parents are interested in ten occupational areas for their children. The ten categories include nursing, secretarial, X-Ray technology, homemaking, accounting, music, medical technology, laboratory technology, radio-TV technology, and engineering technology.

The questionnaires, distributed to parents in the four-county area to be served by the community college, also asked parents to indicate their interest in further education for themselves. Many parents responded that they would be interested in courses for self improvement, some others showed an interest in working on a two-year degree, while still others said they would be interested in courses pertaining to job improvement.

There were ten general fields of interest listed by fathers for themselves. They included: business administration, liberal arts, electronics technology, laboratory technology, engineering, teaching, nursing, building trades, drafting-design technology, and other skilled trades.

Mothers, on the other hand, were interested in liberal arts, nursing, teaching, secretarial-clerical, laboratory technology, business administration, accounting, general business, medicine, and data processing.

The questionnaires, which will help determine the needs of post-secondary level education programs, were distributed to children by teachers in fifth grade classes in most elementary schools

in Gallia, Jackson, Meigs, and Vinton Counties. The children took them home for the parents to complete.

Based on information supplied by Arthur D. Little, Inc., a Massachusetts consulting firm, questionnaires were prepared for parents of fifth grade children who, they say, represent the younger age cross section of residents who have children.

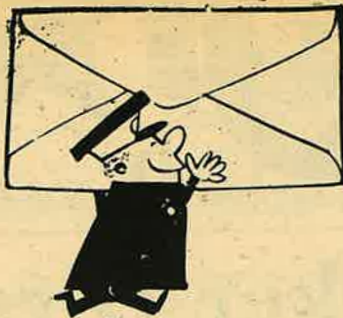

Rio Grande Community College representatives said they felt it is important to know parents' educational aspirations for their children, their interests in education, the certainty with which they look forward to post-secondary education for their children, and the likely level of their motivation.

When the questionnaires were returned, they were tabulated for statistics. From these forms, it was learned that nearly three fourths of the parents indicated interest in having their child prepare for entry into a semi-professional, technical or business occupation for which two years of college or technical institute level education and training are usually required.

When the results of the questionnaires are completed, they will be used to help determine the curriculum of the new Rio Grande Community College.

Q—What is the world's longest bridge-tunnel system?

A—The Chesapeake Bay Bridge-Tunnel, 17.65 miles from the Delmarva Peninsula in Virginia to Norfolk.

Dear Editor,

I find it very sad that persons who have demonstrated their intelligence by receiving college degrees, both masters and doctors, cannot read simple NO SMOKING signs!

There are only a few places on this campus where smoking is prohibited. It would seem that intelligent persons would have enough respect for the campus to resist their urge to kill themselves for a short period of time.

However, it does not seem to be the case. I am continually sitting in classes staring at Dr. —standing beneath a NO SMOKING sign and puffing away. Then I glance around the class to see if someone won't say something and I see at least three more fire-breathing dragons around the room. What is wrong with everyone?

Did we come to college to learn to become intelligent, conscientious citizens or unfeeling law-defying rebels?

If one doesn't have enough respect for small signs how can he be expected to survive in a world based on authority and rules?

Name Withheld

Dear Fellow Students:

This is a letter to inform you that a group of men on this campus are attempting to organize a chapter of Fellowship of Christian Athletes. Already, these men have the support of the National Fellowship of Christian Athletes and the Ohio University chapter.

The benefits of a chapter of this type are numerous, but the goals at first will be the following:

- a "fraternal-like" friendship
- social gatherings for members
- individual members will have the chapter membership to aid in his athletic work-outs and classroom study
- a study of the Christian life

How can a Rio Grande College student become a member of a chapter of Fellowship of Christian Athletes? Well, any male student can join when he meets one of the following requirements:

- a member of a high school athletic team
- a member of a college athletic team
- participated in the college intramural program.
- a manager of any high school or college team

Sincerely yours,

Ed Sayre
Jack Finch
Dave Poling
Vincent Hill
Kevin Honnold

Redemption Center

No Stamps Necessary

Wanted: Jesus Christ

Alias: The Messiah, the son of God, King of Kings, Lord of Lords, Prince of Peace, etc.

Notorious leader of an underground liberation movement.

Wanted for the following crimes:

—Practicing medicine, wine making and food distribution without licence

—interfering with businessmen in the temple

—associating with known criminals, radicals, subversive prostitutes

—claiming to have the authority to make people into children of God

Appearance: typical hippie type-long hair, beard, robe, sandals. Hangs around slum areas, few rich friends, often sneaks into the desert.

Beware: this man is extremely dangerous. His insidiously inflammatory message is particularly dangerous to young people who haven't been taught to ignore him yet. He changes men and claims to set them free.

WARNING: HE IS STILL AT LARGE!!

He is indeed. Just invite him into your heart and be free indeed!!

Wm. Beagles

More Letters

All Student Organizations,

Would you please send a current list of members, officers, advisors, and the latest constitution of your organization to Mrs. Perkins in Student Affairs Office, to complete our files.

Clyde M. Evans

Alpha Sigma Phi

Alpha Sigma Phi officers for this semester are John "Ski" Goddard, president; Dave Linn, vice president; Trip Armbruster, secretary; Rick Smyser, treasurer.

Smokers will be held on January 22, February 2 and 5.

We don't worry about the little things, do we?

The Signals, written by students and published by the Office of College Relations, appears weekly during the school year, except holidays.

Subscriptions are obtained for \$5 from The Signals, Box 253, RGC, Rio Grande, Ohio 45674. Phone 245-5684.

Letters to the editor must be signed. Opinions expressed in published letters are not necessarily those of the Signals.

Financial Aid News

During the next few weeks, articles concerning the most recent changes in financial aid will be covered in the financial aid news. These articles are an attempt of the Financial Aid Committee to alert the students of the most up to date happenings in financial aid.

The financial aid policies adopted by the Financial Aid Committee December 12, 1972 are as follows:

A student owing more than 15 pct. of his freshman educational expenses (room, board, books, tuition and fees or approximately \$3,000 - total cost) will not be enrolled his sophomore year. This would mean that a student owing more than \$450, would not be enrolled for his sophomore year. A student owing more than 8 pct. of his freshman and sophomore educational expenses (approximately \$6,000 - total cost), which would be approximately \$480, would not be enrolled for his junior year.

A student owing more than 4 pct. of his freshman, sophomore, and junior educational expenses (approximately \$9,000 - total cost), which would be approximately \$360, would not be enrolled for his senior year.

A student who owes the College and is employed by the College (either Work-Study or Non Work-Study) must pay 50 pct. of his

monthly earnings to the College in order to be employed.

All financial material can now be picked up in the Financial Aid Office. The forms should be completed as quickly as possible. The Financial Aid Office will answer any questions.

A revolving loan fund is now being planned for implementation in the next week or so. Two students appointed by the Student Senate are finalizing the plans for the loan fund. The loans will be for \$5, \$10, and \$15 for only a week or so. The students would pay back at the termination of his loan \$5.05, \$10.10 or \$15.15. There will be \$250 in this fund. The success of this fund rests entirely with the students. The policies and procedures for this fund will be made known as soon as the student committee completes them.

Students that may want a Guaranteed Student Loan (bank loan) for next year should investigate the possibilities of getting the loan before early February. As of March 1, 1973, all Guaranteed Student Loans must be established through a need factor. This is in essence the same procedures faced last July. Thus, a Parent's Confidential Statement (PCS) must be filed in order for the Financial Aid Officers to have the proper documentation for establishing a need factor. These are Federal Regulations.

Programs Needed

Rio Grande Community College office has received questionnaires from local business and industry in the four county area to be served by the college, which will be used in the development of the college.

The questionnaires, distributed originally by the community college to industry, are designed to gather information and opinions from employees about the need for educational programs to prepare people for work in the semi-professional and technical job categories for which formal education beyond high school but less than a four year college degree is ordinarily considered essential or a desirable requirement.

The response from business and industrial leaders in the Gallia, Jackson, Meigs and Vinton County areas has been tremendous. More than 150 questionnaires were distributed by the community college, and at least 90 per cent were completed and returned to the college by the deadline.

Local business and industry are helping with this project because they understand that a community college will not only offer close to home college or university preparation at a price people can afford, but also collegiate level programs in technical and semi-professional fields.

Engineering, health care services, business, law enforcement, child care center management, fire protection, aides to teacher, social workers and librarians are but a few of the many fields that will be covered under the new Rio Grande Community College.

In addition to this, the community college offers the first two years of a four year traditional college program.

The questionnaires that have been returned will be evaluated and tabulated and the information gathered will be used in the overall development of the Rio Grande Community College curriculum.

Q—What president was fined for imposing martial law?

A—Andrew Jackson, before being president. He declared martial law in 1815 during the Battle of New Orleans and was fined \$1,000 for contempt. In 1844 Congress voted to return the fine.

College Plan Completed

The official Rio Grande Community College plan is to be completed by January 16, ready for review, according to Mr. Jack Carsey of Pomeroy, Co-General Chairman of the Citizen's Advisory Committee to the Community College.

More than 30 attended last week's meeting of the committee which was termed one of the "most successful" in the history of community College meetings. Mr. Carsey conducted the meeting where reports from various committees were heard.

Mrs. Helen Hayes of Great Bend, Meigs County, a member of the background committee reported on part of the history surrounding Meigs County.

Mr. T. K. Owens of Jackson, who is Chairman of the Background Committee reported to the group on what other members of his committee are doing.

Mrs. Carol Evans of the Wellston School District, Chairman of the

Needs Committee, reported on the needs of school children in the four-county area for continuing education.

Mr. Lynndell Mills of Hamden, another member of the Background Committee told the group about some of the history in that part of Jackson County.

Mr. Warren Skidmore of Bidwell, chairman of the Finance Committee, said that by the next meeting on January 25, his committee will be ready to report on the amount of tax levy from the four counties needed to support the new Community College.

At that meeting, the Educational Needs Committee will report on the proposed curriculum and programs which will be in effect at the Community College.

Included in the attendance at last week's meeting was Dr. Raymond Young of Arthur D. Little Co. who are the consultants for Community College from Massachusetts.

Series of Intramural Activities Are Completed

The last week of last semester completed a series of Rio Grande's intramural Activities. Leading the list of five Powder-puff football teams, Team One finished their season with a perfect 4-0 record. Several of the season's games were forfeited due to outside weather conditions; however, enough games were played to declare a winner. Members of the winning team were Chic Penn, Team Organizer; Felicia Kenny, Kathy Geringer, Jan Boyle, Iesa Wagner,

Pam Jenkins and Mary Acuri.

The co-educational billiard tournament ended with the first place team of Miss Diane Lewis and Dr. Bruce Curtis as victors. Second place was gained by Becky Anderson and Bruce Melton while third place was earned by Nancy Thompson and Ken Sanders. Eight teams were involved in the tournament.

One-on-One basketball provided classic half-time entertainment at

the Rio Grande vs. Walsh College basketball game, for it was this time when "one-on-one" intramural finals were played.

Ken Sanders, a junior from Wyoming, Ohio took first place honors. Second place went to Norm Persin, a senior from Warren, Ohio. Third place was gained by Jeff Sheets while fourth place was captured by Dave Drew. Originally thirty-three participants competed in the tournament.

someone says . . .

A new club has formed on campus. The club takes as members all who like to b--ch. If you wish to join contact Barb.

Who marks their underwear with a "T" instead of an "X"??

What does S-E-X really spell?

The people ? in Room 137 deserve a trophy for being the very best bubble blowers.

Ditto says Room 221.

Anyone having items for this column please place them in RGC Box 471. Thank you.

Dr. Butcher tried to do the students at Rio a favor this week by running over a certain red-head, however, somehow (which hasn't been determined yet) he missed. (God watches over sparrows and ding-bats.)

Automobiles are like dorm rooms, right Bill??

Tom did his "Littlebit" in an experiment in Social Science.

Youth Fare Abolished

The Civil Aeronautics Board has ruled that "youth standby, youth reservation and family fares are unjustly discriminatory and that family and youth reservation fares are also unreasonable." The announcement came December 7, with the accompanying guarantee that actual adjustment to "normal" fees awaits further investigation.

Over 300 million dollars annually is spent by young people on youth fare tickets. Over one million separate tickets are purchased by air travelers who believe that they are entitled to its benefits until age 22. If the fare is abolished, privileges of the card would be revoked. According to Russell Lehrman, President of Continental Marketing Corporation, a youth fare card sales concen, youth travelers may lose "from 25 to 33 pct. air fare reduction."

National Marketing Corporation and the National Student Lobby are sponsoring the Coalition to Retain Air Discount Fares (CRADF). The Coalition, says Mr. Lehrman, "Will provide a vehicle to express their views so that they will be heard."

The organization is launching a national letter and petition writing campaign to appeal to Congress for immediate action on legislation that will provide a continuation of youth discounts. The letters will be sorted by CRADF in Washington and forwarded to the proper Congressmen.

In 1968 a CAB examiner ruled that discount fares limited to persons 12 to 21 years old are "unjustly discriminatory" because age alone is no valid distinction between passengers. Shortly thereafter the CAB was flooded with mail critising the decision.

On December 7th, the Civil Aeronautics Board Abolished Youth Fares. Please cut out and mail the letter below to let Congress know where we stand and that proper legislation is in order to correct this injustice now!

ACT NOW

Dear Congressman:

Please take action to save the Youth Fares and Discount Fares which have recently been abolished by the Civil Aeronautics Board.

I would appreciate it if you would also write the CAB and request that they delay enforcement of this decision until Congress has an opportunity to act on this important question.

Some 5-million students traveled using this discount fare in the past year. This contributed over \$400-million to cover fixed costs of the airlines. These carriers can be presumed to have a full grasp of the marketing considerations involved and are, at least, as interested as the CAB in dropping any useless discount fares. Yet, an overwhelming majority of the airlines who participated in the CAB investigation are in favor of these fares.

Millions of students have purchased their Youth Fare identification cards with the belief that the cards would be valid until their 22nd birthday. Now the cards are being abruptly cut off by the CAB's decision.

As one of millions of young voters, I respectfully request that you act to pass legislation that will allow the CAB to discriminate on the basis of age by keeping Youth Fares. I will be anxiously awaiting the results of the coming legislation concerning this matter.

Mail to:

Redman Sports

Mid-Ohio Falls To Rio Grande

The Rio Grande Redmen are in top spot in the Mid-Ohio Conference. The Redmen have a 1-0 record, and he'd a slight lead over Cedarville and Urbana, both these teams being 2-1 in the conference. Ohio Dominican trails these with 2-2 while Malone has a MOC record of 0-3.

In conference games last week, Urbana and Ohio Dominican split in two contests. ODC won the first meeting in Columbus, 94-82, but Urbana captured the second contest, 71-65, three days latter. Rio Grande topped Malone, 96-84, in Canton, and host Cedarville defeated Malone 76-72.

Malone is the top offensive club in the Conference, with an 85.9

point scoring average. Urbana has the stingiest defense, yielding only 73.8 points per game. Cedarville leads in both field goal accuracy (47.4 per cent) and free throw percentage (76.5 pct.), while Malone is the strongest rebounding club (51.7 percent).

Individually, Ohio Dominican's Ken Richardson leads in scoring (22.5 points per game), rebounding (14.8), and field goal percentage (61.4 percent). Cedarville's Steve Young is the other categorical leader, hitting 88.2 per cent from the foul line. Young replaced Urbana's Tim Goines as the top free throw shooter. On the strength of a 43-point effort against Malone, Ron Lambert from Rio Grande has

a 21.2 scoring average. Malone's Phil Hodge is second in rebounding at 12.8 retrieves per game, while Bill Aikman of Urbana trails only Richardson in field goal accuracy. Aikman has a 57.8 shooting percentage.

At 87.5 percent, Rio's Mike Rouse is second in free throw percentage.

In Mid-Ohio tilts this week, Cedarville faces both Ohio Dominican and Rio Grande. Eight non-conference games are also on tap.

Flu Bug Hits Redmen

The Rio Grande Redman basketball team returned to action last week after a short layoff from a disastrous holiday season that saw the Redmen's record drive to 3-7, including last place finishes in their own Rio Grande Holiday Tournament and the Findlay Holiday Basketball Tournament. In the first round of the Rio Grande Holiday Tournament, which was won by Northwood College, they defeated Concord College 84-77. Rio Grande fell to Concord 94-84 and were then defeated by West Virginia State 93-82 in the consolation game. Ron Lambert was selected on the All-Tournament team. In the Findlay Holiday Tournament, Rio Grande fell to Erkrine College 63-57 and then lost the consolation game 91-72 to Findlay College.

The Redmen's long holiday victory came in a round robin tournament when they defeated

Keene State. The Redmen won the tournament, but the other victories came against Navy teams and thus do not count in the record books.

Last Friday, the Redmen traveled to Canton, where they suffered an 84-83 loss to Walsh. Ron Lambert led Rio scoring, hitting 29 points. Dan Bollinger netted 21 points, and Dave Poling pumped in 13 points. Poling led rebounders by pulling off 12 rebounds, followed by the 11 rebounds of Bollinger.

The Redmen bounced back Saturday night as they whipped Malone College 96-84 as Ron Lambert put on a one-man show, ripping the nets for 43 points and grabbing 22 rebounds off the boards. His 43 points in one game is a season high for the team, as are his 19 field goals and seven free throws. Dan Bollinger hit 16 points in the game, Dale Thompson netted 11 points, grabbed 10 rebounds, and had five assists, and

Mike Rouse scored 10 points. The victory raised Rio's record to 4-8 and gave the Redmen a 1-0 record in MOC play.

The Redmen traveled to Wright State University Tuesday night, suffered a 65-64 loss. The Redmen's worst enemy was not the opposing team, but the flu bug that forced Dale Thompson, Steve Bartram, Dave Poling and Dean Fausnaugh out of action and into beds.

Dan Bollinger led Rio in scoring, netting 23 points. Mike Rouse followed with 16 points, and Ron Lambert scored 15 points. Lambert pulled off 11 rebounds, and Bollinger grabbed off 10 rebounds.

The flu bug, apparently picked up at Malone, has struck several other members of the varsity, and has caused the cancellation of Thursday night's game with Central State.

J. V. Wins

Off to their best start in years, the J.V.'s throttled Walsh for the second time this season, winning last Friday night 86-58 at Walsh to raise their season record to 3-1. Leslie Ware led the team effort, ripping the nets for 17 rebounds. Dave Whitt, playing in his first game of the season, hit 14 points and had 3 assists, second only to Jay Pendleton's 5 assists. Lance Redmen contributed to Rio's control of the boards by grabbing off 11 rebounds.

Saturday night was a different story as the J.V.'s fell to Malone 95-77. Malone, showing off a sparkling fast break and a splendid defense, blew the game wide open in the second half, at one time having a lead of 28 points before Rio started a rally back towards respectability. Dave Whitt led Rio in scoring, coming off the bench to net 18 points. Jay Pendleton had 13 points and 4 assists and Lance Redmen ripped in 13 points and had 3 assists. Tom Smith hit for 12 points and was practically the only Redman on the boards, grabbing off 17 rebounds. The loss dropped the Rio J.V. record to 3-2.

RIO GRANDE COLLEGE 1972-73 Women's Basketball Schedule Coach: Diane Lewis

Date	Time	Opponent and Place
Wed., Jan. 17	5 p.m.	Morris Harvey at Rio Grande
Sat., Jan. 20	2 p.m.	Otterbein at Rio Grande

Tues., Feb. 27	6 p.m.	Rio Grande at Glenville College
Sat., Mar. 3	1 p.m.	Rio Grande at Muskingum

Women's Basketball

After the Redwomen's first game of the season, Wednesday night against Morris Harvey, they came away defeated; but hopefully, not discouraged.

Throughout the first quarter the Redwomen had trouble hitting. They just could not kick their offense into gear, obvious by the number of turnovers. But let's give 'em a break; their coach can give 'em a hard time for all of us! In the second quarter the Redwomen remained tight and could not loosen up, being over-psyched and somewhat (Slightly!) nervous about their first team encounter.

During the last half the Redwomen came alive, but couldn't score consistently and were upset by a 45-28 decision.

The high scorers were Poole with 10 points and Stull with 9. Other scores credited to Pam Douthitt with 2; Cary C. Sharon Vannoy, and Ma Early with 1 apiece.

Angie Polle, speaking for the team, relayed the Redwomen's appreciation for the great support Wednesday night, and hopes will continue. "It really gives confidence."

"Let's support the Redwomen one hundred percent. They need our confidence just as much as we need it", states Redwomen fan. Show your support at their next game against Otterbein at 2 p.m. in Lyne College.

Road Rally At Rainy Rio

Through mud, water, and more water was the motto in last semester's Intramural Road Rally Contest at Rio Grande College. Each car contained a driver and navigator by which both made attempts to decipher from a series of coded instruction sheets where to travel and how quickly to arrive at the destination. Six individual check points unmapped a course consisting of 57 miles of hills, curves, city traffic, and gravel roads. All but one of the thirteen entered cars completed the contest. This was due to mechanical error. The winning car was claimed by Dr. and Mrs. Bruce Curtis with a return trip of only 22

seconds under the required time. Second place was gained by Oliver and Ray Roberts, both staff members at Rio Grande College, while third place was earned by Pat McCort, a student, and Mr. Robert Phreys, biology instructor.

This road rally climaxed last semester's Intramural activities at Rio Grande College. Preparations are already being made for the spring semester program plans show men's team basketball, women's volleyball, wrestling, co-ed racketball, checkers heading the list for January.

Intramural Leaders Named

Well, the first semester is behind us, and we once again begin a new series of studies. Meanwhile, the Intramural Individual Point Contest is halfway through, and the three top leaders have been tabulated.

In the Men's Category, Richard Preston holds the lead, having won the Archery Shoot and finishing second in the Rifle Shoot. Norm Persin has a grip on second place, having been on the first place team in Flag Football and finishing second in the One-on-One Basketball Tournament. Ken Sanders has third place having finished first in the One-on-One Tournament and finishing third in the Billiards Tournament.

In the Women's Category, Deb LaDuca firmly holds first place with a total of 265 points. LaDuca received her points for a first place finish in tennis, second place finishes in Archery and Powder Puff Football, and entry points for Jarts and Billiards.

Pam Douhitt is in second place with a total of 190 points, having taken first place in Jarts, third-

place finishes in Archery and Powder Puff Football, and entry points in the Car Rally. In third place is Chic Penn with 155 points, having been a member of the first place team in Powder Puff Football, finishing second in Jarts, and receiving entry points in Tennis.

In the Faculty Category, Dr. Bruce Curtis is in front with 270 points, far outdistancing Miss Diane Lewis' second place total of 125 points. Dr. Curtis has two first-place finishes to his credit, having finished first in both the Billiard Tournament and the Car Rally, and he finished second in the Racketball Tournament. Miss Lewis received her points for a first place finish in the Billiards Tournament (teamed with Dr. Curtis) and entry points for Powder Puff Football. Dr. Edward Sofranko is in third place with a total of 100 points, having received entry points for the Rifle Shoot, the Racketball Tournament, the Billiards Tournament, and the Car Rally.
