

## Respiratory Therapy Program Update

### July 2017

The recently completed annual report of the Respiratory Program to CoARC, our accrediting agency, indicates that **all thresholds for accreditation have been exceeded again for this report.**

Thresholds include items such as Graduate satisfaction with the Program, National Board Exam pass rates, Employer satisfaction, and Graduate Job placement.

- Graduate surveys sent six months post graduation show **Average Overall Graduate satisfaction was 100%.**

The recently graduated (May) class of 2017 has seen each Graduate already pass National Board Exams at above the CRT level, for another 100% success rating. They join the classes of 2016, 2015, 2013, and 2012 in achieving that distinction.
